1. CONTRIBUTIONS

Individual contributions to the athletic department from the Southeastern Development Foundation, Inc., totaling \$290,679, exceeded 10 percent of the total contributions included in Statement A.

2. CAPITAL ASSETS

Capital assets are reported at cost at the date of acquisition or their estimated fair value at the date of donation. For movable property, the university's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life greater than one year. Renovations to buildings, infrastructure, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized if they exceed \$100,000. Any infrastructure exceeding \$3 million must be capitalized, but the university does not have any infrastructure that meets that criterion. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight-line method over the estimated useful life of the assets, generally 40 years for buildings and infrastructure, 20 years for depreciable land improvements, and 3 to 10 years for most movable property. All departments within the university follow standardized policies and procedures prescribed by state laws and regulations for acquiring, approving, depreciating, and disposing of capital assets. The university has no debt associated with its athletic department's capital assets.

Capital asset activity for the Athletic Department for the year ended June 30, 2007, is as follows:
